

"The Lottery" Comic Strip

Directions: You will reimagine the tone of "The Lottery" and create an 8-panel comic strip. This comic panel should be colored and demonstrate effort, as well as understanding of the short story. Pick 8 scenes that you believe are the most important in the story to change. Use your "Tone and Mood" mini-lesson notes to assist you as you brainstorm and make your revisions.

After you create your comic strip panel, please answer these questions:

- 1. What is the tone of your comic strip?**
- 2. How is the tone of your comic strip different from the tone of the original short story?**
- 3. In what way is your tone conveyed? How did you show these changes?**

You must write at least 8 sentences to earn full credit for the writing portion. Use a clean sheet of paper to do the writing portion.
